CREMO

WHERE MEMORIES ARE CREATED

WHERE MEMORIES ARE CREATED

Fill your life with memories. Together. Explore the cliffs, islets, and bays. Try your fishing skills in new places. Dock in a harbor and enjoy the restaurant's freshly caught shellfish. Cross the lake and have a picnic in the green grass. Cast anchor and dive from the boat into the deep blue. Speed up and watch as your friends get up on the water skis. Memories are best when shared.

CRAFTSMANSHIP AND ADDED VALUE

Each boat is a deftly made craft, based on our over sixty-year-old tradition of building Swedish-designed boats. Well devised and seaworthy constructions are our hallmark. Reliability is present in every boat model that has passed tough tests. The material is strong and maintenance-free fiberglass, which can withstand harsh weather, wind and water for many years. It also provides a good resale value on the day you choose to switch to a newer model or a larger one. Most models have been designed by renowned boat designers such as Pelle P.

All CREMO's boats are safety tested and CE marked, which guarantees that we deliver safe boats of good quality.

CREMO's
history starts in
1958

Bernt Sallén, engineer in Monark's bicycle factory in Varberg, goes to the World Fair in Milan and returns back home with the idea of creating boats out of plastic. The family who owns Monark says yes!

With Masonite plugs and centimetre thick layers of laminate, the first boat of Crescent/Monark is born – a three-meter-long Dinghy.

Bengt Sallén contacts Lloyd's in London, a classing society that has studied glass fibre boats and created a framework for the safety classing. The new boat **Monarita 14**, filled with sandbags, were released from 2 meters of height. The gentlemen from Lloyd's were impressed and gives their approval. **Safety became a signum for the boats.**

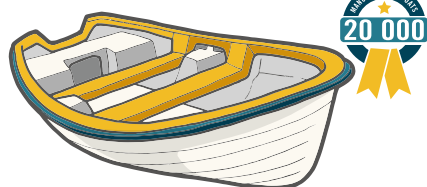

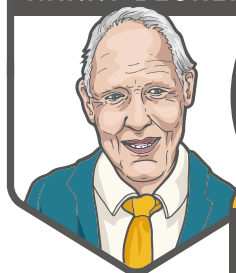

To buy a boat you went to your bicycle shop

DO YOU NEED A BICYCLE OR A BOAT?

The Crescent/Monark **Camping Boat** becomes a huge success in the years 1962 to 1966.

BOAT CONSTRUCTOR
HARRY BECKER

The record boat **Crescent 42** is produced in 20 000 units between 1968 and 2007.

1972

Crescent / Monark start producing boats in Poland.

ABBA joins as investors for a while

Crescent
MONARK
CREMO

1986 marks the year when Crescent/Monark's boat business sector is sold to a former director and the company **Cremo** is created.

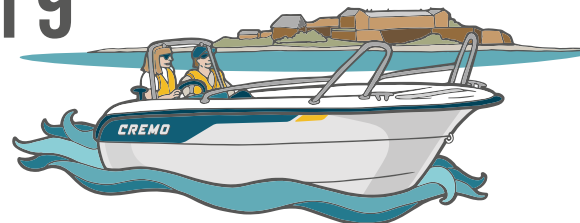

Secure, safe boats approved by a classing society and still are the foundation of **Cremo**.

In 2006 Cremo's very own new, modern factory is ready to start producing boats at an even larger capacity than before.

2019

CREMO gets a new owner and the journey continues where it all started, **Varberg!**

2020

The Crescent profile changes into the new name **Cremo Boats**.

CREMO WHERE MEMORIES ARE CREATED

CREMO 405R

FIRST BOAT OR LIFE-LONG FRIEND

The CREMO 405R is ideal by the cottage, for the precious moments with the grandchildren or at a quiet tour where it's just you and nature. The boat can accommodate several people, bags, packing and fishing rods. With its high freeboards it is stable and safe. With a 405R, you'll make a friend for life.

CREMO 465R

THE OPEN AND STABLE RODDER BOAT

**CREMO
CAMPAIGN!
EXCLUSIVE CREMO
MOORING KITS
FOR FREE**

A long-awaited tiller boat that is unusually stable thanks to a wide hull. It is easy to drive and the strong keel means that it easily keeps the course. The 465R has several different areas of use. Due to its low weight, it is easy to handle, both in the lake and on a trailer. With a tiller for steering, you instead get lots of space in the boat and can move easily. It is built on the same proven hull as the 465 SC.

CREMO 465SC

STABLE AND NIMBLE COTTAGE BOAT

CREMO 465 SC is a sporty boat with side steering consol and windshield. Here you get an affordable quality boat, enjoyed by both experienced fishermen and novice boat owners due to its excellent side stability and easily wielded hull. This is our smallest motorboat in its measurements but with lots of space due to its design. In short, the perfect boat by the cabin.

CREMO 515SC

ROBUST AND FUN FOR FINE CATCHES

A nimble and well-dimensioned boat for lighter fishing. There is plenty of space here for what you need to fit in and the 515SC is the tough little brother of the 550F. Easy to operate. Easy to drive and fun, and at the same time provides good stability that is perfect when you go fishing. Add with soft floor laminate for even more comfort.

A scenic photograph of a rocky coastline. In the foreground, two young boys are walking barefoot on a large, dark, moss-covered rock. They are both shirtless and wearing swim trunks; the boy in front wears light-colored trunks, and the boy behind wears red and black trunks. They are walking towards the left, towards a calm body of water. In the water, another person is visible swimming. The background shows a rocky shoreline with some sparse vegetation under a clear sky.

WHERE MEMORIES ARE CREATED

Fill your life with memories. Together. Explore the cliffs, islets, and bays. Try your fishing skills in new places. Dock in a harbor and enjoy the restaurant's freshly caught shellfish. CREMO 550SC

ALLROUND AND SPACIOUS

Passionate sailors appreciate the robust, smart and larger dimensions. There is plenty of room in the CREMO 550SC. This boat has a large clean colander, generous cargo spaces and safe lateral stability. Don't miss the opportunity to supplement with laminate on the boat's seats. Treat yourself to extra comfort and a hard-wearing seat pad for a nice trip out to sea and lake.

CREMO 550HT

THE CABIN BOAT WITH CULT STATUS

CREMO 550HT
50 YEARS

CREMO

Since 1974, we've been welcoming adventurers, big or small, to pack a blanket, pillow and night sandwich and crawl into our 550HT. The classic 550HT is the safe and spacious cabin model that delivers over and over again. Over the years, she has undergone one or two facelifts, but you can still recognize the classic shapes. A real gem designed by the sailor and engineer Pelle P, thought through to the smallest detail. Great value for money and gives overnight accommodation for the outdoor family. Play games, have coffee and let the water lull you to sleep. Plenty of compartments for stow blankets, pillows and stuff. Interior ceiling lighting and a non-slip deck.

THE BOWRIDER MAKES LIFE SUNNY

CREMO now has a really nice Bowrider in the family. The 558BR is a popular day boat with seating both in the bow area as well as in the cockpit. The wide windshield provides good protection against the wind, and here both children and adults ride comfortably in all situations. It is easy to maneuver, easy to move freely in and provides an uncomplicated boating experience both for lazy days on the sunbeds and when it is time for full water sports activity. Equally appreciated by the experienced boat owner and the one who gets his first.

NEW!

The Cremo Bowrider

We reserve the right to make adjustments. The pictures of 558BR are drawings. Complete information regarding specification, standard equipment, options and equipment lists as well as prices will be presented in spring 2024. Delivery in the latter part of spring 2024.

2,08 m

CREMO 650CC

GREAT PLEASURE AND STABILITY

Sturdy, spacious and tough in all weathers. This is how our customers describe the biggest boat in the CREMO family. The one takes you to greater adventures. The sharp hull plows waves smoothly and stably, even when the wind gets strong. A smart design with a centered consol, seatings for many and lots of space for your bags, swimwear and fishing equipment. The stainless steel makes a sporty and great impression. With the 650CC, you are free to explore new places and safely return home.

CREMO 55

DESIGNED BY PELLE PETTERSON

A stylized signature in blue ink, likely belonging to Pelle Pettersen.

THE RACING CLASSIC AND THE ULTIMATE SCHOOL BOAT

The C55 is the small sailboat that combines the agility of a dinghy and the stability and safety of a keelboat. This popular racing boat is also a superb school boat and a perfect day sailor on the countryside. You can sail the C55 completely by yourself thanks to its easy handling and lowering keel, so you can easily transport it on a regular trailer. You therefore do not need a boat berth.

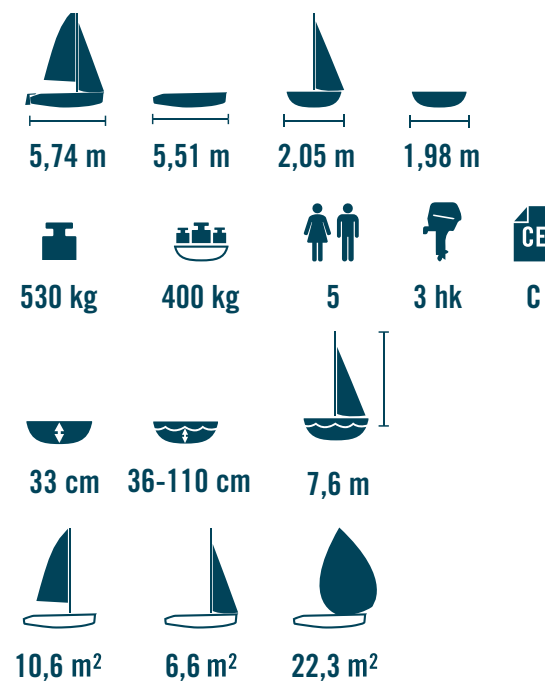

Design by Pelle Pettersson.
